Ergobrella umbrellas for kids are constructed to be very easy to use – they sport colorful, grippable, soft-touch handles with a practical carrying strap, bright, round safety tips, and a robust yet light frame that has an easy open/close mechanism. Reflecting corners on every tip provide for better visibility and increased safety at dusk, dawn or at night. Reflective material reflects oncoming light back immediately (from car headlights, for example) when every second counts. During daylight, these reflective areas shimmer in a matt gray. All umbrellas are windproof, which means that if they happen to flip over, you simply close the umbrella and it returns back to its original shape without any damage. Colorful and cheerful designs that kids love transform useful protection into a treasured, long-lasting, daily accessory. Naturally, all elements of our umbrellas can be recycled and the cover fabrics we use are waterproofed without the use of PFCs – helping them stay dry while respecting our environment.

**Ergobrella kids stay safe and dry – even in the worst of weather!**

Easy to use, hard to overlook and  
always well protected
